

NHAT VIET CLEAN COMPANY LIMITED

PROFILE & PRODUCTS

Welcome to CLEANCO, under the esteemed management of **The Mita Company** founded **in 1967,** we proudly serve the Japanese market with our exceptional automotive products. We ensure unparalleled quality and consistency in every product we manufacture and under stringent **Japanese specifications and standards.**

THE MITA COMPANY, LTD.

40-3 Kumano-cho, Itabashi-ku, Tokyo JAPAN

Representative : Masato Zukoshi

Established : 1967

Capital : 13,800,000 yen

Web : <http://www.the-mita.com/2018/>

MITA WIPER BLADE - Sales office in the United States

361 Van Ness Way, Suite 301, Torrance, CA 90501

We have **five overseas plants** producing products mainly for the Japanese market. There are Japanese plant managers stationed at every plant. The overseas plants are **operated under Japanese specifications and standards.**

OVERVIEW

Expertise in Rubber and Mold Manufacturing

We pride ourselves on our comprehensive **in-house production** capabilities. From compounding, mixing, and molding the rubber to crafting wiper frames and overseeing delivery, every step is meticulously managed at our plant. Our proficiency in designing and manufacturing molds also sets us apart in the industry.

Diverse Product Range

Wiper Blade

Wiper Rubber Refill

Steering Wheel Cover

Car Care Products

Whatever your automotive needs, CLEANCO is committed to meeting them with the highest standards of quality and reliability.

***O.E.M**

Our core business is delivering wiper blades and assemblies as an O.E.M., we supply numerous products to various **automobile manufacturers**, well-known **automobile accessory stores**, and **mass retailers**.

We strive to manufacture our products, and everything from compounding, mixing, and molding the rubber to making wiper frames and delivery is executed and managed at our plant based on technology and know-how cultivated over many years. Our strength also lies in our ability to **design and manufacture molds**.

***O.E.M:** *Original Equipment Manufacturer*

PRODUCTION ACTIVITIES

Factory: Group 1, Block 13, Long Duc, Long Thanh, Dong Nai

Employees: 30 People

Molding / Press

Mold design and manufacturing

Assembly / Inspection

Rubber formulation / Kneading

Sewing

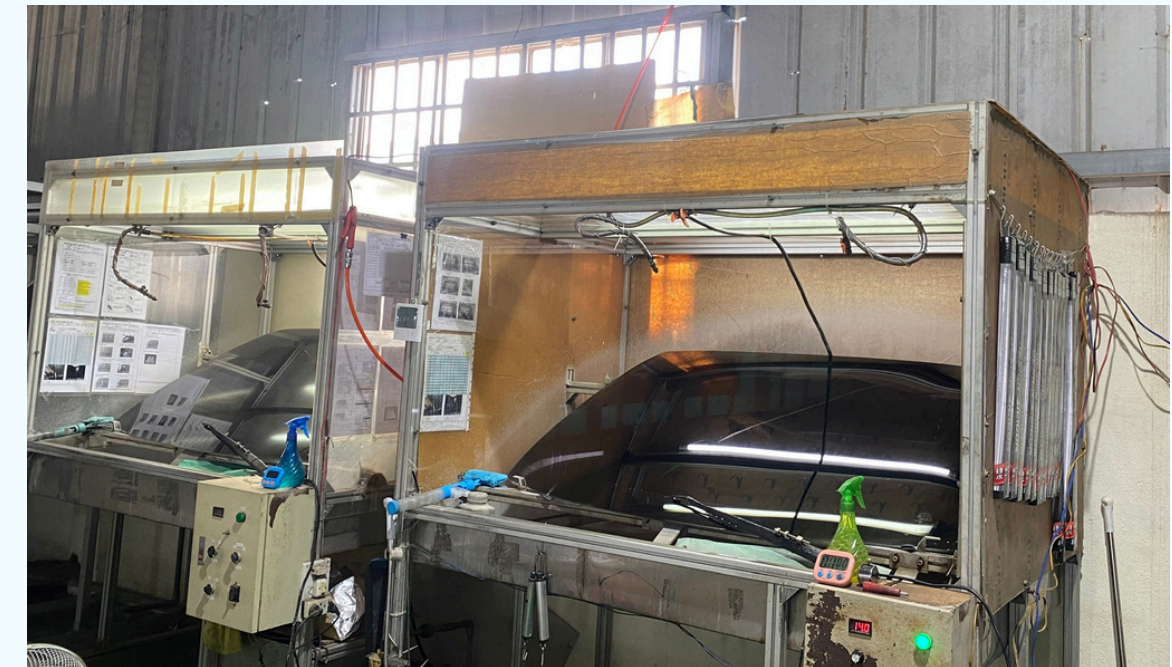

Product development

Machine & Production Equipment

- Roll kneader
- Closed kneader
- Press molding machine
- Hot air circulation oven

- Stainless straight-line machine
- Resin molding machine
- Chlorinator
- Initial wiping test

WHY WORK WITH US?

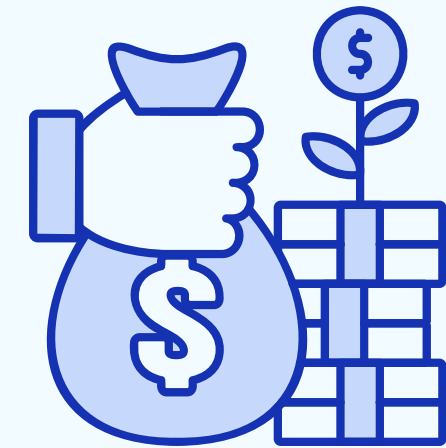

Trust & Reliability

Meeting performance requirements
Minimizing complaints
Quality consistency

Differentiation

Original design strategy
Brand value high profitability

Low - cost Development

Reducing costs through self-manufacturing
Smooth and flexible development

DS-60	24"	8mm
DS-65	26"	8mm
DS-70	28"	8mm

Water-repellent silicone wiper with exceptionally long life with 3x the durability and resistance against UV rays, heat, and low temperatures.

FEATURES

- **Unique Mita Silicone Rubber** Formulation
Makes Windshield Water Repellent
- Superb, long lasting wiping performance
- The clear visibility, even driving in rain
- High grade durability, exceptional long life

Treated

Untreated

Just **3 minutes of dry wiping** creates a uniform coating of water-repellent film coating

DS - SILICONE WIPER BLADE

DS - SILICONE WIPER BLADE

WIPER RUBBER REFILL

- Our rubber blades are innovated with a **silicone blend**, designed to **release water-repelling oil**, ensuring long-lasting water-repelling properties.
- They boast resistance to weathering, ozone, heat, cold, and corrosion, making them three times more durable than non-silicone rubber blades.
- This superior composition **extends their lifespan**, providing reliable performance even in regions with minimal rainfall, high temperatures, and intense sunlight.

WIPER RUBBER REFILL

Graphite Rubber

- Reliable wiping through massive reduction of frictional resistance
- With **the Graphite coating** ensures smooth and quiet wiping even in light rain
- Be compatible with a variety of windshields

Silicone Rubber

- **MITA's unique silicone rubber formulation** repels water from windshield superb, long lasting wiping performance.
- The clear visibility, even driving in rain
- High grade durability, exceptional long life

HIGH - QUALITY SILICONE

- The performance and longevity of wipers are primarily determined by the rubber blade.
- The rubber blade must **glide smoothly** over the glass to **clean it effectively**.
- The rubber has the right stiffness and structural design to **maintain an optimal angle for wiping**.
- The superior composition of the rubber is crucial for **smooth movement** and effective cleaning.
- Our silicone rubber ensures **unrivaled functionality** and **longer lifespan** compared to competitors.

STEERING WHEEL COVER

FEATURES

High-quality natural rubber material used for enhanced durability

Easy & Quick Installation in 20 seconds

Comfort grip by patented unique rubber ring

Options for personalizing with **various colors, patterns** to match the car's interior aesthetics
